Physics 221

TA: Chris Bishop       Office Hours: Thursday 11:15-12:15pm

Class Times: Friday 10:15-11:15am in 608

Email: cbisho12@utk.edu

During Class

During Class I will split you up into groups of 2-3 to work on the problems I will assign. Do not just copy from your partner. Work on your own and if you have questions ask your partner where to start. Also, do not work out the problem for your partner. Only try to give them an idea of how to proceed from where they are stuck. Checking the final answer with each other is fine. If there are certain problems that you are having trouble with I will work them out on the board.

Quizzes

There will be 11 Quizzes total, one at the beginning of each Recitation. Each quiz will be worth 10 points with 2 questions that will test the material that was covered from the previous week’s recitation. The quiz will be the first 15 minutes of the Recitation, so DON’T BE LATE.

Attendance

Attendance is required and part of your grade. Showing up is not enough to get points for the day; you have to actually participate.

Lab Reports From Previous Week

The Lab reports from the previous week’s lab will be due at the beginning of the Recitation. I will take off points if they are late, but if they are more than a couple of days late I will not accept them. If there are extenuating circumstances (does not include bad excuses) let me know as soon as you can. Do not wait until the end of the semester to tell me.

Grading

The recitation will be worth 25% of your Final Lab grade.
